WHO WILL FOLLOW THIS NOTICE:
This notice describes the practices of Carson Valley Medical Center. Upon request, we will provide you with a list of sites and locations that apply to this notice. Carson Valley Medical Center includes all employees, physician staff, trainees, volunteer groups, anyone authorized to enter information into your medical record, and other health care personnel. For the purposes of this notice, the above-referenced entities, sites, and locations will be referred to in this notice as "CVMC." CVMC may share health information with each other for treatment, payment, or hospital operations purposes described in this notice.

OUR PLEDGE REGARDING YOUR MEDICAL INFORMATION:
We understand that information about you and your health is personal. We are committed to protecting your health information. We create a record of care and services you receive at CVMC so we can bill your health plan and provide you with quality care and to comply with certain legal requirements. This notice applies to all of your records that are generated by CVMC, whether made by CVMC personnel or your personal doctor. Your personal doctor may have different policies or notices regarding the doctor’s use and disclosure of your health information created in the doctor’s office or clinic. This notice will tell you about the ways in which we may use and disclose health information about you. We also describe your rights and certain obligations we have regarding the use and disclosure of health information.

We are required by law to:
• Make sure that health information that identifies you is kept private
• Give you this notice of our legal duties and privacy practices with respect to health information about you; and
• Follow the terms of the notice that is currently in effect.

HOW WE MAY USE AND DISCLOSE HEALTH INFORMATION ABOUT YOU:
The following categories describe different ways that we use and disclose health information. For each category of use or disclosures, we will provide examples of the types of ways your information may be used. Not every use or disclosure in each category will be listed.

For Treatment.
We may use health information about you to provide you with medical treatments or services. We may disclose health information about you to doctors, nurses, technicians, medical students, or other Carson Valley Medical Center personnel who are involved in your treatment.
• For example, a doctor treating you for a broken leg may need to know if you have diabetes because diabetes may slow the healing process. The doctor may also need to tell the diettian if you have diabetes so that we can arrange for appropriate meals.

We may also disclose information to different departments, imaging and lab services. Once you leave our care, we may disclose information about you to family members, clergy, and others who are involved in your care outside Carson Valley Medical Center.
• For example, a nurse treating you for a broken leg may need to tell your employer that you are unable to work because of your injury.

For Payment.
We may use health information about you in order to bill your health plan and collect payment from you for treatment and services. We also may use and disclose health information about you so that the treatment and services you receive at CVMC may be billed to, and payment may be collected from, you, an insurance company, or a third party.
• For example, we may need to give your health plan information about surgery received so that your health plan will pay us or reimburse you for the surgery. We may also need to provide your health plan with certain information in order to obtain prior approval of treatment or to determine whether your plan will cover the treatment.

For Health Care Operations.
We may use and disclose health information about you for health care operations. These uses and disclosures are necessary to run Carson Valley Medical Center and make sure that our patients receive quality care.
• For example, we may use health information in order to review and evaluate the quality of our care and services and to conduct audits.

For Research.
We may use health information about you to conduct research. However, we will not disclose identifiable health information to outside researchers without the appropriate approval. We may also use or disclose your health information as part of certain research projects. For example, a research project may involve comparing the health information of all patients who received one medication to those who received another for the same condition. All research projects are subject to a special approval process. This process evaluated a proposed research project and its use of health information, trying to balance the research needs with patients' need for privacy of their health information. We may also permit researchers to review your information to prepare for research.
